Giacomo Veneri (Siena 17/11/1973) graduated in Telecommunications Engineering in 1999. PhD graduated at the Department of Neurological Sciences, University of Siena in 2012.

1. **1999-**2000 **Consultant** on Java at **IBM**
2. **1999-**2004 **Contract researcher at University** of Siena as an expert of HCI in the context of Multimedia and NLP.
3. **2001-**2004 **CoFounder of Metaresearch** – NLP Company
4. **2004-**2005 MarketView **Developer at ION Trading**.
5. **2005-**2012 **Technical Manager and Directo**r of the research laboratory (MIUR) of Etruria Innovation SPA (12+ peoples).
6. **2012**-2014 **Team Leader at Engineering Spa** (6+ peoples).
7. **2014**-2018 **Technical Manager at General Electric**.
8. **2018**-2024 **AI Director at Baker Hughes** IET Artificial Intelligence Specialists Team (20+ peoples).
9. **2025 Leader of IET Digital Services Engineering at Baker Hughes** (65+ peoples).

Certification: Java Certified, C3.Ai certified, Predix certified, GreenBelt certified, SAFE certified. NLP Specialist, NVIDIA Deep Learning.

Books

1. Maven Build Customization – Packt 2014
2. Hands-On Industrial Internet of Things – Packt 2018, 2nd edition Packt, 2024

Publications (last 5)

1. Combining Thermodynamics-based Model of the Centrifugal Compressors and Active Machine Learning for Enhanced Industrial Design Optimization, Ghiasi, Pazzi, Del Grosso, De Magistris, Veneri, SynS & ML ICML2023
2. Sensor virtualization for anomaly detection of turbo-machinery sensors - An industrial application
   Shetty, Gori, **Veneri**
   9th International conference on Time Series and Forecasting - ITISE2023
3. Document Layout Analysis with Variational Autoencoders: An Industrial Application, Youssef, Valvano, **Veneri**, **ISMIS** 2022. Lecture Notes in Computer Science, 2022
4. Continual Learning for anomaly detection on turbomachinery prototypes - A real application, Gori, **Veneri**, Ballarini, 2022 **IEEE** CEC 2022
5. Deep Surrogate of Modular Multi Pump using Active Learning
   Murugesan, Goyal, Barriere, Pasquotti, **Veneri**, De Magistris
   Adaptive Experimental Design and Active Learning in the Real World - **ICML** 202

Awards: SayDo 2006 (EU Community), Predix Influencer 2016, NASSCOM 2023, NASSCOM AI GameChangers 2024
